APPLIED NAVAL ARCHITECTURE

2ND EDITION

3G E-LEARNING

TABLE OF CONTENTS

Preface	xv
Chapter 1 Introduction to Ship	1
Introduction	1
1.1 Naval Architecture	2
1.2 Features of Merchant Ships	8
1.2.1 Dry Cargo Ships	8
1.2.2 Tankers	11
1.2.3 Passenger Ships	14
1.2.4 Specialized Vessels	17
1.2.5 Offshore Vessels	21
1.3 Management of High Speed Craft	25
1.3.1 Types of High-Speed Craft	25
1.3.2 Design and Construction Issues	28
1.4 Role of Warships	29
1.4.1 Types of warship	30
Summary	37
Knowledge Check	38
Review Questions	39
References	40
Chapter 2 Ship Design	41
Introduction	41
2.1 The Ship Design Requirements	42
2.1.1 Some Design Features	43
2.1.2 Developing the Design	46
2.2 The Ship Design Process	48
2.3 Design of Merchant Ships	52
2.3.1 General Cargo Ships	52
2.3.2 Container Ships	54

2.3.3 Roll-on roll-off ships (Ro-Ro ships)	57
2.3.4 Bulk Cargo Carriers	58
2.3.5 Passenger Ships	66
2.3.6 Tugs	68
2.4 Design of High speed Craft	69
2.5 Design of Warship	72
2.5.1 Enemy weapons	74
Summary	82
Knowledge Check	84
Review Questions	85
References	86

Chapter 3 Ship Measurements and Calculations 87

Introduction	87
3.1 The Concept of Ship's hull	88
3.1.1 The geometry	88
3.1.2 Representing the Hull Form	92
3.1.3 Hull Characteristics	93
3.2 Displacement and Tonnage	95
3.2.1 Deadweight	95
3.2.2 Tonnage	96
3.3 Regulation	98
3.3.1 Load Lines	98
3.4 Approximate Integration	99
3.4.1 Trapezoidal Rule	100
3.4.2 Simpson's rules	101
3.4.3 Other Simpson's rules	108
3.4.4 Tchebycheff's Rules	108
3.4.5 Polar co-ordinates	109
Summary	110
Knowledge Check	111
Review Questions	112
References	113

Chapter 4 Flotation and Stability 115

Introduction	115
4.1 Equilibrium of A Body Floating In Still Water	116
4.1.1 Underwater Volume	118
4.2 Stability at Small Angles	120
4.2.1 Transverse Metacenter	122
4.2.2 Transverse Metacenter for Simple	

Geometrical Forms	123
4.2.3 Metacentric Diagrams	126
4.2.4 Longitudinal Stability	127
4.3 Hydrostatic Curves	129
4.3.1 Fully Submerged Bodies	130
4.3.2 Problems in Trim and Stability	131
4.3.3 The Inclining Experiment	138
4.4 Launching	142
Summary	145
Knowledge Check	146
Review Questions	147
References	148

Chapter 5 Resistance 149

Introduction	149
5.1 Fluid Flow	150
5.2 Types of Resistance	153
5.2.1 Wave-Making Resistance	154
5.2.2 Frictional Resistance	159
5.2.3 Eddy Making Resistance	162
5.2.4 Appendage Resistance	163
5.2.5 Wind Resistance	163
5.3 Calculation of Resistance	164
5.3.1 ITTC method	165
5.3.2 Wetted Surface Area	167
5.4 Methodical Series	169
5.5 Roughness	172
5.5.1 Form Parameters and Resistance	173
5.6 Full Scale Trials	176
5.6.1 Effective Power	177
Summary	180
Knowledge Check	181
Review Questions	182
Reference	183

Chapter 6 Propulsion 185

Introduction	185
6.1 General Principles of Propulsion	186
6.1.1 Extension of Effective Power Concept	186
6.2 Propulsors	187
6.2.1 Momentum Theory	188

6.2.2 The Screw Propeller	190
6.3 Propeller Thrust and Torque	198
6.3.1 Blade Element Theory	198
6.3.2 Presentation of Propeller Data	201
6.3.3 Hull Efficiency Elements	207
6.4 Cavitation	211
6.4.1 Comparing Ship and Model under Cavitating Conditions	211
6.4.2 Cavitation Number	212
6.4.3 Occurrence and Effects of Cavitation	213
6.4.4 The Cavitation Tunnel	214
6.5 Other Propulsor Types	217
6.5.1 Controllable Pitch Propeller	217
6.5.2 Self-pitching Propellers	217
6.5.3 Surface Piercing Propellers	218
6.5.4 Shrouded or ducted propellers	218
6.5.5 Pump Jets	218
6.5.6 Contra-rotating propellers (CRPs)	219
6.5.7 Azimuthing propellers	219
6.5.8 Vertical axis propeller	220
6.5.9 Water jet propulsion	220
6.5.10 Paddle wheels	220
6.5.11 Wind	221
Summary	222
Knowledge check	223
Review Questions	224
References	225

Chapter 7 Seakeeping **227**

Introduction	227
7.1 Seakeeping Qualities	228
7.2 Ship Motions	229
7.2.1 Motions in Regular Waves	229
7.2.2 Presentation of Motion Data	231
7.2.3 Motions in Irregular Seas	232
7.2.4 Energy Spectra	234
7.3 Limiting Factors	236
7.4 Stabilization	238
7.4.1 Bilge keels	239
7.4.2 Passive tanks	240
7.4.3 Active fins	240

7.4.4 Active tanks	241
Summary	243
Knowledge Check	244
Review Questions	245
References	246

Chapter 8 Powering Systems in Ship **247**

Introduction	247
8.1 Ship Power System Control: A Technology Assessment	248
8.1.1 The Virtual Test Bed	249
8.1.2 Main Goals of the Demonstration	250
8.1.3 Definition of the Scenario	251
8.1.4 Power Generation and Supply on a Ship	253
8.1.5 Emergency Power Supply & Shaft Alternators for Ships Machinery Operation	255
8.2 Intelligent Shore-to-Ship Power Supply System	257
8.2.1 Design of the Cable Lifting Device	260
8.2.2 Structural Design of the Cable Lifting Device	261
8.2.3 Control Circuit Design of the Cable Lifting Device	264
8.2.4 Collaborative Motor Control	266
8.2.5 Modeling and Simulation	270
8.3 Onboard Integrated Marine Power Systems	272
8.3.1 Modern Marine Power Systems	274
8.3.2 Future Marine Power Systems	276
8.3.3 Maritime Microgrids	278
8.4 Ship Microgrids: System Architectures and Power Quality Aspects	280
8.4.1 Ship Power System Architectures, Loads and Sources	281
8.4.2 Energy Storage Solution for Power Quality Improvement	287
Summary	297
Knowledge Check	298
Review Questions	299
References	300

Chapter 9 Technological Impact on Ship Architecture

303

Introduction	303
9.1 An IoT-Based Ship Berthing Method Using a Set of Ultrasonic Sensors	304
9.1.1 Main Architectures of the IoT	305
9.1.2 IoT Elements and Technologies	306
9.1.3 IoT, Cloud, BigData in the Marine	309
9.1.4 Interrelated Mechanism	311
9.1.5 Problem Analysis in Ship Berthing	313
9.1.6 Proposed System	314
9.1.7 Implementation and Experiment	321
9.1.8 Consequences	322
9.2 Simultaneous Ship Detection and Orientation Estimation	325
9.2.1 Simultaneous Detection and Angle Estimation	328
9.3 Ship Detection for Optical Remote Sensing Images Based on Visual Attention	334
9.3.1 Proposed Method	337
9.3.2 Experiments and Argument	342
Summary	352
Knowledge Check	353
Review Questions	354
References	355

Chapter 10 Management of Ship Safety and Services

357

Introduction	357
10.1 Ship Safety Management System	358
10.1.1 System of Formal Safety Assessment (FSA)	359
10.1.2 Identification of Risks during Lockage of LNG-Fueled Ships	361
10.1.3 Risk assessment of Lockage of LNG-fueled ships	363
10.1.4 Suggestions for Lockage Safety Management of LNG-fueled Ships	368
10.2 Ship Management Services	370
10.2.1 Shipping Operations Manager	371
10.2.2 Management of Ship's Commercial Activity	372
10.2.3 Ships Operator	375
10.2.4 Cruise Ship Purser	376
10.2.5 Duties of a Purser on a Ship	377

10.3 Control Systems for the Ship in Confined and Open Waters	379
10.3.1 Training Ship	381
10.3.2 Automation of the Ship Motion Control Processes	382
10.3.3 Essential Components Arrangement of the Autonomous Training Ship	389
10.3.4 Motion Results	391
10.4 Manpower Management Service	396
10.4.1. Customer Value	
10.4.2. People Value-Shore Staff and Seafarers	
10.4.3 Training for Effective Value Creation	
10.4.4 Knowledge Management (KM) Strategies	
10.5 Future in Ship Management	404
10.5.1 Average Salary of Cruise Ship Workers	405
10.5.2 Reasons to Work on a Cruise Ship	406
Summary	411
Knowledge Check	412
Review Questions	413
References	414
Index	417

INDEX

A

ahead resistance coefficient (ARC) 164
aircraft 67, 74, 76
amidships 89, 90, 91, 93, 94, 97, 107, 111
Anchor Handling Tug Supply (AHTS) 17, 21
Artificial intelligence 304
Automation system 304

B

Bernoulli's theorem 150
Boil-off gas (BOG) 362
Bonjean curves 118, 119, 133, 143
boundary layer 158, 159, 160, 163, 172
bow system 156, 157
bulbous bow 175
bulk carrier 9, 10
buoyancy force 117, 121, 125, 130

C

Cable laying vessels 17
cargo carrier 52, 84
cargo handling systems 6
civil engineer 3
Clarke transform 268
Collaborative control method 272
computer designed ships 92
Constant false alarm rate (CFAR) 325
Container ships 9, 10, 38, 54, 56, 84

Control strategy 266, 267, 269, 270, 271, 292, 293
Convolutional neural networks (CNNs) 325
Cost-benefit Assessment 361
Cruise ship industry 357, 411
Cruise ships 66

D

deadweight tonnage (DWT) 10, 13, 38
Design development 46
Diesel-Electric-propulsion 248, 297
Drilling vessels 18
Dry cargo ships 8, 38

E

effective power 176, 177, 178
Electrical angular velocity 268, 269
Electromagnetic torque 267, 268, 269
Electronic product codes (EPCs) 307
Embedded technology 304
energy spectrum 232, 234, 235

F

Feeling things 307, 352
Ferries 3, 5, 16, 38
floating body 117, 120
Formal Safety Assessment (FSA) 359
frictional resistance 153, 154, 164, 165, 166, 167, 170, 172, 173, 175, 177, 181, 182
Froude number 151, 152, 153, 154, 164

fully submerged body 130

G

geometric 159

gravity 116, 120, 127, 128, 132, 133, 136, 137, 138, 139, 140, 142, 143, 146

H

Histogram of oriented gradients (HOG) 325

hydraulically 160

hydrodynamics 150, 179

Hydrofoil craft 69, 71

hydrostatic curves 115, 129, 131

hydrostatic forces 116, 117, 146

I

Integrated Tug Barges (ITB) 12

International Maritime Organization (IMO) 59

International safety management (ISM) 358

Internet of things (IoT) 305, 352

L

Land-based power systems 248, 297

length between perpendiculars (LBP) 88

liquefied natural gas (LNG) 11

liquefied petroleum gas (LPG) 61

Load Line Regulations 98

M

maintenance costs 44

Marine industry 247, 272

marine vessels 2, 3, 13, 17, 18, 19

mean time between failure (MTBF) 50

mean time to repair (MTR) 50

merchant ship 44, 52

Merchant vessels 8, 39, 40

methodical series 149, 169, 170, 171, 176

momentum theory 198, 200, 208

N

Naval Architect 3

Naval architecture 2, 5, 7, 303, 352

naval technology 2

Navigation 361, 363, 368, 381, 414

Network layer 305, 306, 315, 320, 321, 352

Non-linear systems 267

O

Object-based image analysis (OBIA) 325

Ocean liners 14

ore/bulk/oil (OBO) 66, 84

P

parallel middle body 157, 175

Passenger ships 66

pipelaying vessel 19, 38

presentation of motion data 231, 245

propeller efficiency 200, 203, 219

propulsor. 186, 189, 217

Pulse generator 269

Q

quasi-propulsive coefficient (QPC) 187

R

refrigeration system 54, 56

repair by replacement (RBR) 50

response amplitude operators (RAOs) 232

Reynolds' numbers 154, 159, 160, 168

rolling 229, 230, 231, 238, 239, 240, 244

Roughness 149, 172

S

Safety assessment method 359, 360

Safety management system (SMS) 358, 411

Scale-invariant feature transform (SIFT) 325

seakeeping 43, 47, 67, 69, 71, 228, 232, 236, 245

Seakeeping ability 228, 244

Seismic vessels 19

Sensor layer 305, 306, 315, 321, 352

Service-oriented architecture (SOA) 305

ship depth 90, 111

ship motions 232, 233, 238, 245

Ships 3, 8, 10, 14, 15, 26

ship's displacement 95, 112
 ship's hull 87, 88, 112
 Slamming 229, 236, 237, 244
 Small Waterplane Area Twin Hull (SWATH) 69
 Sparse representation classifier (SRC) 325
 Specialized vessels 17, 38
 subsurfaces 230
 Support vector machine (SVM) 325

T

Tankers 3, 11, 12, 13, 38, 58, 59, 84
 Tchebycheff rules 109
 Tonnage 95, 96
 Transformation matrix 268
 Transmission layer 305, 352
 trapezoidal rule 101, 111
 tugboat 20
 Tugs 68, 69

U

Ultra Large Crude Carrier (ULCC) 59

V

very large crude carriers (VLCC) 12

W

warships 43, 44, 49, 72, 74, 75, 77
 waterline 89, 91, 93, 94, 98, 111
 waterplanes parallel 126, 129
 water surface 154, 181
 wave-making resistance 152, 153, 154, 155, 156,
 158, 166, 173, 175, 177, 181, 182
 wave system 155, 156, 157, 175, 181, 232, 235, 237,
 244
 wetted surface area 159, 167, 170, 172, 173
 wing-in-ground effect (WIG) 6

Y

yachts 3, 5, 14, 16, 28
