TABLE OF CONTENTS

Foreword		i
Preface		iv
Chapter 1:	Basic Metallurgy, Metals and Processes	1
	Exercise 1.0	13
Chapter 2:	Properties and Uses	15
	Exercise 2.0	25
Chapter 3:	Non-Metallic Materials	27
	Exercise 3.0	31
	Exercise 3.1	33
Chapter 4:	Processes	35
	Exercise 4.0	39
Chapter 5:	Heat treatment of Carbon steel	41
	Exercise 5.0	45
	Exercise 5.1	47
Chapter 6:	Materials Under Load	49
	Exercise 6.0	57
	Exercise 6.1	59
Chapter 7:	Vibration	61
	Exercise 7.0	73
	Exercise 7.1	75
Chapter 8:	Self-secured joints	77
	Exercise 8.0	83
Chapter 9:	Permanent Joints	85
	Exercise 9.0	91
Chapter 10:	Bonding plastics	93
	Exercise 10.0	101
Chapter 11:	Adhesives and bonding health and safety	103
	Exercise 11.0	113
	Exercise 11.1	114
Chapter 12:	Joining plastics	115
	Exercise 12.0	121

Chapter 13: Destructive and non-destructive testing of material	123
Exercise 13.0	131
Chapter 14 - Engineering processes used in construction and repair	133
Exercise 14.0	139
Chapter 15 - Practical Knowledge of the non-destructive examination	141
Exercise 15.0	149
Chapter 16 - Design characteristics	151
Exercise 16.0	163
Chapter 17 - Design characteristics of bearings (Plain bearings)	165
Exercise 17.0	181
Exercise 17.1	183
Review Questions	185
Bibliography	193
Conversion of Units	195
