FEATURES

24 Keys to Designing Safe Pneumatic Circuits

Designing safe pneumatic circuits requires using proven and evaluated techniques and well-established components that have been properly sized for the application.

28 Pneumatic Controls: Simple and Reliable

Pneumatic controls hold many advantages over other methods of control and actuation—easy installation, low cost, and, of course, reliability.

31 Global Effort Expands Panama Canal

Top-notch hydraulic system design and collaboration between multiple countries finally bring the world's largest locks into the millennium.

36 A Wealth of Information at Offshore Technology Conference

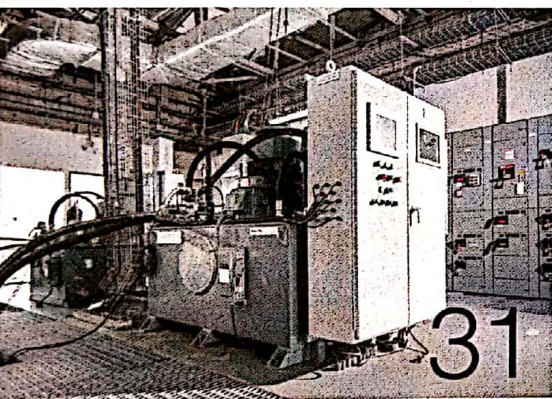

Technical sessions and training courses fill out the schedule for attendees at the big event in Houston.

40 LSHT Motor Drives Tough Industrial Shredder

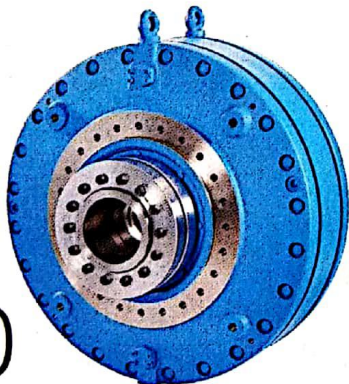

Radial-piston motor delivers high torque and withstands torque spikes to ensure reliability on shredders that process commingled heavy industrial and construction waste.

42 Waste Expo Comes Marchin' In to New Orleans

The event features dozens of exhibitors offering fluid power products.

Subscriptions — U.S. and possessions outside U.S.: \$70/yr.; \$100 two yrs. Single copy: January \$15.00; all other issues \$9.00. In Canada: \$85.00/yr.; \$125.00 two yrs. Canada Post Publications Mail Agreement No. 406126089. Canada return address: IMEX Global Solutions, PO box 25542, London, ON, N6C 6E2. International: \$100.00/yr.; \$165.00 two yrs. To order, phone 847-763-9670. Fax orders to 847-763-9673. Send subscription payment to: *Hydraulics & Pneumatics*, P.O. Box 2100, Skokie, IL 60076-7800. Out-of-print copies available in complete volumes as positive microfilm from NAFCD 800-420-6272 x 6578. Photocopies of articles \$5.00 each. Payment must accompany request. Volume 70, No. 4, April 2017.

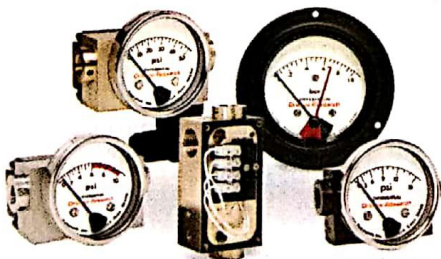

The Strongest Filter Monitors

High Pressure Filter Monitors

Our differential pressure gauges, switches and transmitters provide rugged and reliable performance in the toughest environments, and are:

- rated for static pressures up to 10,000 psi
- coupled magnetically, with no mechanical linkages to break
- machined from solid metal blocks

PENTON IS AN INFORMA BUSINESS

Pressure Sensors Feature Digital Display

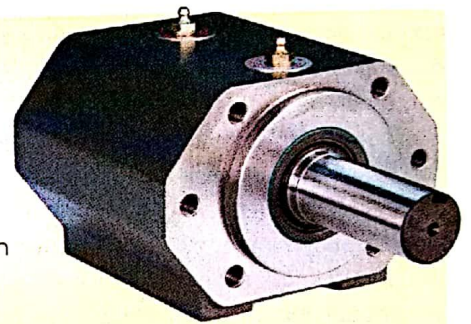

PROSENSE EPS pressure sensors feature a digital display configurable to bar, mbar, kPa, MPa, inches of water column, and inches of mercury. Targeting industrial gas and liquid applications, the stainless-steel housing is rated to IP67 ingress protection, and withstands extreme shock and vibration. The sensors indicate pressure ranges from vacuum to 5,800 psig, and incorporate overpressure, burst pressure, and long-term stability into each range. Atmospheric pressure is referenced at the 4-pin M12 electrical connection. Models are available with two solid-state switch outputs, or with one solid-state and one scalable analog output.

AUTOMATION DIRECT, (800) 633-0405, www.automationdirect.com

Load Adaptor Supports Axial Loads in Hydraulic Motors

THE MODEL 650 overhung load adaptor leverages heavy-duty bearings, a longer profile, and a strong steel shaft for more radial and axial load support in hydraulic motors and pumps. Featuring a cast-iron housing and heavy-duty spherical roller bearings rated at 130,000 psi, it can handle speeds up to 3,500 rpm. The protect-the-shaft-seal of the motor improves the operational life in harsh environment applications.
