FEATURES

22 Hydraulics Power New Digger Derrick to Higher Levels
Heavy-duty digger derrick powers multiple functions with hydraulics and meets ANSI 10.31 specifications in a powerful, compact package.

26 Rodless Cylinders Handle It All
Whether you need to move a load up, down, in, or out, rodless cylinders provide an unconventional way to get it done.

31 Making the Connection with Pneumatic Couplings
Pneumatic quick-acting couplings provide a fast, convenient way to repeatedly connect and disconnect air lines.

36 Pumps & Motors: The Best of Both Worlds
A new electrohydrostatic drive concept can increase productivity and reduce energy consumption, while boasting simpler installation than existing drives.

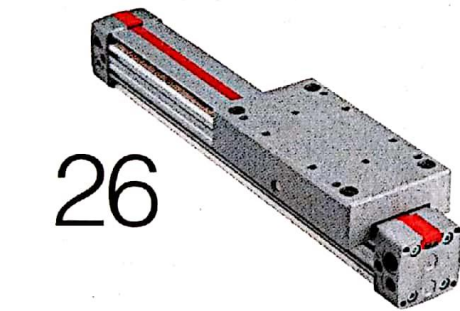

39 Flush Out Contamination Problems
Fluid velocity during hydraulic-system flushing procedures is critical to successful removal of manufacturing and installation debris.

42 Bringing the Industrial Internet of Things to Fluid Power
Unlike the all-purpose IoT, the IIoT requires much more than just syncing your smartphone with individual devices.
