### FEATURES

- 22 Clear the Air of Oil and Noise**  
Even though industry has trended toward using non-lubricated air, the benefits of using an air lubricator are undeniable. Whatever the choice, the decision must be a prime consideration.
- 26 Five Must-Knows for Successful Hydraulic Filter Sizing**  
Proper filtration is essential to the longevity of hydraulic systems, but selecting the right filter for the job isn't always a cut-and-dry task.
- 30 VFD Power Unit Cuts Energy Use in a Smaller Footprint**  
A compact hydraulic power unit (HPU) combines a permanent-magnet AC (PMAC) motor with a variable-frequency drive (VFD) to reduce overall cost and energy consumption.
- 33 Why Your Hydraulic Machine Probably Needs an Oil Cooler—and a BIG One!**  
A lot of attention is paid to contamination of hydraulic fluid, usually viewed as dirt, water, and air. But heat is also quite detrimental to hydraulic fluid and may account as many component failures as "regular" contamination.
- 37 Hose Specification Guide: Hose Standards**
- 44 Hose Specification Guide: Hose Installation**
- 50 Hose Specification Guide: Hose Supplier Index**
- 52 Maintain Your Usefulness**  
The Reliable Plant Conference at Cleveland's Huntington Convention Center April 16-18 will equip attendees with the tools needed to go back to work—and make their workplaces better for it.

Printed in U.S.A. Copyright © 2019 by Informa Media, Inc., all rights reserved. *Hydraulics & Pneumatics* is published monthly, except for a combined issue in Jan/Feb and Jul/Aug, by Informa Media, Inc., 9800 Metcalf Ave., Overland Park, KS 66212-2216. Phone: 216-696-7000. Periodicals postage paid at Kansas City, MO and at additional mailing offices. **POSTMASTER:** Send address changes to *Hydraulics & Pneumatics*, P.O. Box 2100, Skokie, IL 60076-7800. Copying: permission is granted to users registered with the Copyright Clearance Center Inc. (CCC) to photocopy any article provided base fee of \$1.25 per copy of the article plus 60¢ per page is paid directly to CCC, 222 Rosewood Dr., Danvers, MA 01932 (Code No. 0018-814X/00 \$1.25 + 60¢).

Subscriptions — U.S. and possessions outside U.S.: \$60/yr.; \$90 two yrs. Single copies \$10.00 each. In Canada: \$70.00/yr.; \$110.00 two yrs. Canada Post Publications Mail Agreement (No. 40612608). Canada return address: IMEX Global Solutions, PO box 25542, London, ON N6C 6B2. International: \$90.00/yr.; \$140.00 two yrs. To order, phone 847-763-9670. Fax orders to 847-763-9673. Send subscription payment to *Hydraulics & Pneumatics*, P.O. Box 2100, Skokie, IL 60076-7800. Out of print copies available in complete volumes as positive microfilm from NAPCO 800-420-6272 x 6578. Photocopies of articles \$5.00 each. Payment must accompany request. Volume 72, No. 2, March 2019.

### Accumulators Compatible with Most Liquids

**NUQUIP A-SERIES** piston-type accumulators come with maximum working pressures to 30,000 psi (2,068 bar) and three liquid capacity options. They are machined from stainless steel for a long service life. A wide selection of liquid port and seal materials helps ensure compatibility with most liquids. These accumulators are used for damping pressure pulsations or to provide supplemental flow when a system pump cannot meet demand. The manufacturer can assist with accumulator sizing and determining the nitrogen precharge pressure needed for individual applications.

### Displays Offer Easy Viewing in Sunlight

**DM430E SERIES** display offers OEMs and operators a machine interface with good outdoor screen viewability and simple screen set-up. The optically-bonded and anti-glare coated 4.3-in. color display provides wide viewing angles as well as viewability in all lighting conditions. A light sensor automatically adjusts screen brightness in darker settings and switches between day and night display themes. OEMs can set up the display without any programming. The application connects more than 4,000 J1939 engine signals with a set of predefined screen graphics, saving development time and resources. The display can be oriented in

portrait or landscape, offering direct RAM mounting and opportunity to add USB and RS-232 connectivity features. The display meets IP66 and IP67 enclosure ratings and can withstand operating temperatures ranging from -30 to 70°C.
