48 When Hearts Attack

BY JEANNE ERDMANN

53 Bust a Move

BY JENNIFER WALTER AND GEMMA TARLACH

56 Fire in the Belly

BY ANNA FUNK

Everyone has an opinion about the best way to get in shape, but what does science say about getting fit (p. 53)?

COLUMNS & DEPARTMENTS

p. 8

5 EDITOR'S NOTE
A User's Guide to Us

How did the global pandemic change the way we looked at this special issue of the magazine?

6 INBOX
 Readers weigh in on dogs riding with their heads out the window, the ethics of bringing back extinct animals and more.

7 THE CRUX
 Special Report on COVID-19: How the pandemic is affecting a doctor on the front lines, what you can do to prevent the spread, how the virus affects the body, and more.

26 VITAL SIGNS
A Wildfire in the Brain

Doctors remove an oozing mass inside a woman's skull. Then, it comes back.

BY CLAIRE PANOSIAN DUNAVAN

30 NOTES FROM EARTH
Oceans Beneath the Oceans

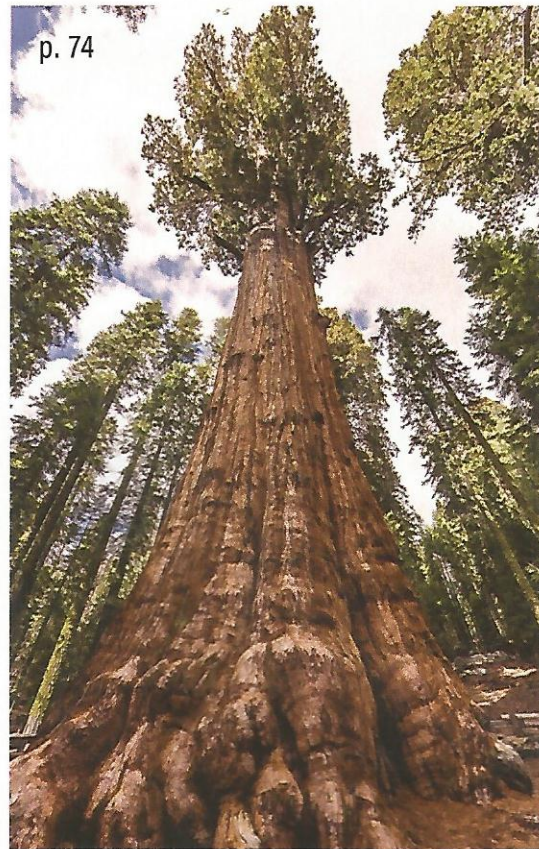

The water stored in the inner layers of Earth may be more plentiful — and important — than scientists previously thought.

BY STEVE NADIS

62 PROGNOSIS
When the Fever Doesn't Break

The spread of dengue taps into a perfect storm of climate change and economic strife.

BY STEPHEN ROBERT MILLER

p. 74

68 HISTORY LESSONS
Your Hyperbolic Mind

How a form of geometry once considered mathematical heresy could help us understand human perception.

BY STEPHEN ORNES

74 20 THINGS YOU DIDN'T KNOW ABOUT ...
Longevity

Is there a secret to living a long and prosperous life?

BY JONATHAN KEATS
