Acknowledgement

First we would like to thank our research instructor, Dr. Elvira Delgado for guiding us and teaching us in the entire process of the research, and also for analyzation and interpretation of the data.

Mrs. Maria Elena Poral, for improving and correcting the words and phrases that has been used in the study.

Dr. Ma. Elena J. Eleperia, for allowing us to retrieve school information's and utilize some facilities of the school.

Our Parents, for the immeasurable support and guidance in the entire study. And financing in our endeavours.

To all the students of senior high school department who participated in conducting the study.

To God to the glory, the immeasurable love and blessings from Almighty. And the given guidance and wisdom to pursue and achieve the study.

Abstract

In this generation most of the students waste their time on social media so the researcher had the idea to study this kind of trend among the young people of this generation. Social media has become ubiquitous and almost inescapable, revolutionizing the way students communicate, interact and socialize, and has become an integral part of their social and cultural fabric. Consequently, students are spending a substantial part of their time on social media. University students and youth are considered the largest user of technologies.
