CONTENTS

SEPTEMBER/OCTOBER 2019

VOL. 40, NO. 7

A single adult lesser flamingo stands out among less colorful juveniles in Kenya's Lake Bogoria.

30

The Science of Gun Violence

Researchers believe public health models hold the key to reducing the damage.

BY RUSS JUSKALIAN

38

The Energy Scavengers

Everyday static electricity may be the world's most plentiful source of renewable, sustainable power.

BY STEPHEN ORNES

46

Weathering the Storm

How meteorologists turn heaps of data into a forecast most relevant for you.

BY ALISON KLESMAN

54

The Flamingo's Future

Lessons from a race to rescue thousands of abandoned flamingo chicks.

BY ANNA GROVES

COLUMNS & DEPARTMENTS

6 EDITOR'S NOTE

Look to the Evidence

Gaps in data complicate our understanding of the causes and effects of gun violence.

7 INBOX

Readers weigh the pros and cons of DNA testing kits, and of scratching that itch.

9 THE CRUX

Flocking together; science investigates itself; be a vocabulary whiz; a stormy surface of sorts on Jupiter; yakking it up in Nepal; the latest on whether Planet Nine is a thing; revisiting the decade-old promise of a cure for paralysis; when Earth's energy gets jerked around; and much more.

22 VITAL SIGNS

Out of the Blue

An older man's discolored toes may be a warning sign of a serious problem — or an obvious oversight.

BY TONY DAJER

26 MIND OVER MATTER

Phobia's Familial Roots

Whether it's nature or nurture, your relatives may be to blame for your fears.

BY AGATA BOXE

62 ORIGIN STORY

Getting Naked

Alone among primates, our species shed its head-to-toe pelt. We sweat the details on how and why it happened.

BY BRIDGET ALEX

p. 26

p. 68

68 OUT THERE

Taking the Plunge

Jump into a spinning black hole with us and see what happens.

BY STEVE NADIS

74 20 THINGS YOU DIDN'T KNOW ABOUT...

Comets

Sometimes they go missing, sometimes they go dark, and sometimes they reveal damaged DNA.

BY GEMMA TARLACH
